

Agenda for round table discussion at resumed online Inquiry on 1 August

The Inspector has the benefit of written statements from the parties about the topics on the agenda, except for Item 7, and so it will not be necessary to repeat your case on these matters. Relevant Written Submissions and Documents already before the Inquiry are set out in [] after each agenda item. The round table discussion on each of the agenda items will enable the Inspector to focus on disputed points where that would assist his understanding of the parties' respective cases.

The discussion on each item will proceed along the following lines:

- Matters for clarification identified by the Inspector.
- RBC's response.
- HTAG's response.
- Appellant's response.

0930-1100

1. Introduction / preliminary matters.
